The screenshot shows a Kali Linux virtual machine window titled "kali-linux-2024.2-virtualbox-amd64 [Running] - Oracle VM VirtualBox". The terminal window displays the execution of the script `./gameshell.sh`. A warning message indicates a more recent savefile exists, and the user is prompted to choose an action. The user selects option 2, "switch to the last savefile (gameshell-save.sh)". The terminal then shows a list of commands to use, followed by a separator line. Below the separator, the terminal displays the start of the command history for mission 27, showing the prompt `*#@* G_**/~ !$-#`.
